

# What Makes NavC A Standard Gold Coin?

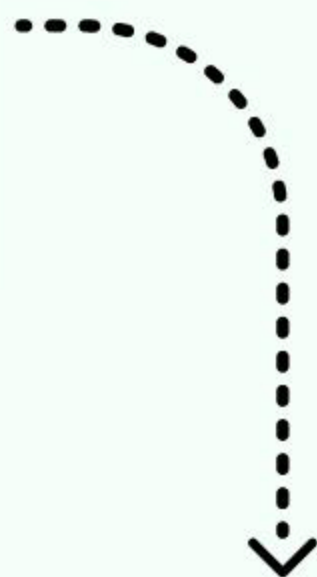

NavC is referred to as a Standard Gold Coin because the token's value keeps increasing with time, just like Gold.

NavC is designed so that, every day, investors can experience capital appreciation with each trade.

## Here are the significant factors that makes NavC a Standard Gold Coin

NavC is used for all the transactions on NavExM Exchange, which gives cashback for every trade with minimum or zero trading fees compared to all other CEX.

No, external entity or factor can negatively impact the price of the NavC because the token value depends on transactions happening on NavExM exchange.
