

# NavExM the Next-Generation Crypto Exchange

## Positive Cashback on Every Trade

Traders can get a cashback of up to 5 times the transaction fees on every trade which will always be more than the trading charges.

## Up to 10 Times Lower Transaction Fees

By trading on NavExM, traders can enjoy the lowest transaction fees in the market, 0.02% - 0.01%.

## Low Impact Cost

Low transaction cost on NavExM and cashback benefits will increase its liquidity. Result, the impact cost on NavExM will be much lower than any other Crypto Exchange.

## Arbitrage Opportunity

On NavExM, the cashback benefit is higher than the transaction fees. The cashback effectively reduces the cost of purchase creating an arbitrage opportunity on the exchange itself.
